

I am so thankful for K-LOVE in my community because I need the uplifting help in this world today. I feel that if the signal is disrupted there are people that are at the end of their rope and need that pastor on the phone and on the radio to help get them through it. This world needs all the "bright spots" in can get and

K-LOVE is a very big "bright spot" in a lot of lives. The music allows you to connect with a feeling of forgiveness and Love which is all a lot of people have to get them through this mean world of today. Please do not interrupt the signal from K-LOVE-it has saved lives and it will save more lives if you let it.
